From Doctor Vaientine Mott, Profes sor of Surgery in the University of New York, Surgeon of the New-

I cheerfully add my testimony in favour of Mr Swaim's Panaces, as a reinedy in Scrofuls. I saw two inve-terate cases perfectly cured by it, after the usual remedies had been long tried without effect—those of Mrs Offner and Mrs Campbell.

. Mr. Done, chairman of the committee on ways and

means, delivered the following report:
The committee of ways and means which was ordered to nquire into the expediency of laying a moderate tax by way of license upon all pleasure carriages, take leave to report tion, and think it inexpedient at this time to recommend the

passage of any law on the subject.

In the early part of the present session, the chairman (ab. that time) of your committee, submitted to the house the project of a law to provide for a general valuation and assessment of property in this state, intended to be based up-on the principle laid down in the bill of rights, "that every person in the state ought to contribute his propo tion of public taxes for the support of government, according to his actual worth in real or personal property within this state."

Your committee consider it due to themselves to state, that although they entirely concurred with their former chairman in the principle which that law was intended to establish and enforce, they differed with him as to the details of the bill which was presented by him; and the committee has learned that it has occasioned some surprise that the law should purport to come from a committee, a majority of which were opposed to it. To explain this circumstance, your committee will further state, that the law in question was the same which occupied a large portion of the last session of the legislature—that it had by repeated votes received the sanction of a large majority of the popular branch—that by a resolution of the house it was appended to the proceedings of the house of delegates, for the consideration of the people—that a number of the most experi-enced and influential members of the present house had expressed their determination to pass the law in the precise shape it was formerly acted on, and had come from their constituents with that pledge—that your committee were led to believe that a large majority of the present house were of the same determination, and that whether they consented or not, the bill would in that shape be presented to the house. Under these circumstances, and from a high respect for those members of your committee who reported and advocated the measure at the last session, they authorised the chairman to report it, with an express understanding that they were not thereby precluded from taking any course they might think proper, when the subject came up for the considera-

tion of the house. Contrary to the general expectation, it has been now assertained that the bill is not as popular with the members of the present as it was with those of the former house of delegates, and that it is doubted whether, if it can be passed at all, it will not be with some very important modifications. The subject is, however, still before the house, and until it is disposed of your committee consider it premature to re-commend a tax on any species of preperty embraced within the details of that bill, and which will be subject to its pro-

If a general assessment law should be passed with a view to laying a direct tax, it will certainly not be proper to extend a said county; which petition was referred.

Afr. Hope presented a petition of James Potect, of Harford county, praying to be divorced from his wife Margaret.

Mr. Wallis presented a petition of Welthy Ann Hardisty.

Mr. Wallis presented a petition of Welthy Ann Hardisty, of the wife of John Hardisty, of Harford county, praying for a divorce a mensa et thoro.

the present period. . Your committee would, however, very respectfully urgo the house to immediate attention to this important subject-(See Igst page.)
